

Titan Cool 7.3

Mobile Spot Cooler 7.3kW Titan Cool

Why cool the whole building when you can cool the area most affected by heat? This approach saves on costs and power usage.

Installation takes minutes and has a running cost of approx 32.5p/hr.

Dimensions (l x w x h)	mm	620 x 560 x 1240
Weight	Kg	90
Air connections	-	12" (5m) & 6" twin ducts
Air flow	m ³ /hr	960
Current consumption	Amps	12.5
Power supply		230/1/50 (1.5mm ²)
Max power absorbed	kW	3.0
Power connections	-	13 amp standard plug
Power sound level	dBA	66@ 10m (max fan speed)
Nominal cooling duty	kW	7.3 @ 22°C in 28°C ambient

Features

This single fan SPOT COOLER with large volume air movement of 960m³/hr is ideally suited to cool server rooms, production areas and workplaces.

The Cool Energy Titan Cool unit has been designed for a fast rental installation and start up.

The unit operates from a standard 13amp single-phase supply and has a single 12" heat rejection hose.

In addition to this, the unit is entirely portable and has castors with brakes. This allows for easy movement when cleaning around this lightweight unit.

Benefits

The 7.3kW spot cooler (25,000 Btu/hr) is a free-standing unit and can direct cold air to specific areas by utilising the twin adjustable air ducts situated in the front of the unit.

The unit is capable of spot cooling electrical cabinets, personnel in bakery areas, computer suits, server rooms and packaging halls where localised cooling is required.
